Contents

VOLUME 4, ISSUE 1, 2023		
No	Editorial	Pages
1	PLANT AND FRUIT CHARACTERIZATION OF AVOCADO (PERSEA AMERICANA MILL.) GENETIC RESOURCES IN NEPAL	01-08
2	THE ROLE OF GENDER IN AGRO-BIODIVERSITY CONSERVATION IN MADHYABINDU MUNICIPALITY OF NAWALPUR DISTRICT	09-12
3	POPULATION DENSITY AFFECTS ON VEGETATIVE GROWTH AND YIELD OF BJRI DESHI PAT SHAK-3	13-15
4	TCOMPARATIVE EFFECT OF SEED PRIMING AND GROWING MEDIA ON SEED GERMINATION AND SEEDLING GROWTH OF PAPAYA (CARICA PAPAYA L.)	16-21
5	CITRUS GREENING: A MAJOR THREAT TO CITRUS GROWERS IN NEPAL	22-26
6	EFFECT OF GEOGRAPHIC LOCATION ON YIELD AND QUALITY OF SEED OF BJRI TOSSA PAT-8	27-29

Editorial

Agricultural biodiversity is the diversity of crops and their wild relatives, trees, animals, microbes and other species that contribute to agricultural production. This diversity – which results from thousands of years of interactions among people and the environment – is a key component of healthy diets and human health. Food biodiversity is crucial to fight malnutrition and diet-related diseases. A diverse diet increases the likelihood of consuming adequate amounts of the full range of nutrients essential to human health. In agricultural production, agrobiodiversity supports long-term productivity, resilience and multiple ecosystem services, boosting yields in quality and quantity, increasing soil and water quality, and reducing the need for synthetic fertilizers. It also makes farmers' livelihoods more resilient, reducing yield losses due to climate change and pest damage. Broadening the types of cultivated plants is also good for the environment, increasing the abundance of pollinators and beneficial soil organisms, and reducing the risk of pest epidemics. Agricultural biodiversity also keeps open options for unknown future needs, when conserved. This can happen in gene banks as well as on farms, where agrobiodiversity is conserved by using it.

Scientific Board

Editorial Team

Editor in Chief

Dr Fridelina Sjahrir
Faculty of Engineering and Life Sciences
Bestari Jaya, Selangor Darul Ehsan, Malaysia

Associate Editor

Dr Gab Olulakin Adesina
Department of Crop and Environmental
Production
Ladoke Akintola University of Technology
Oyo, – State, Nigeria

Editorial Board

Dr a K M Mominul Islam
Department of Agronomy Bangladesh Agricultural
University, Mymensingh-2202,
Bangladesh

Sagar Bist
Gokuleshwor Agriculture and Animal Science College,
Gokuleshwor, Baitadi, Nepal

Md. Rashedur Rahman
